

The purpose of this brochure is to show to our friends that a few of us who, though compelled by the exigencies of business to spend our days in the marts of trade, have found nearby a spot for our homes where we can go when the day's work is ended and enjoy real peace and rest; where with our families we can indeed commune with nature; where we breathe pure air and drink clear, sparkling water, and when we lie down to slumber our peace is undisturbed.

We are awakened in the morning by the songs of birds and the sun
